Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 17 November 2003.
 2a) This action is **FINAL**. 2b) This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 31-50 are rejected under 35 U.S.C. 102(e) as being anticipated by

Yamazaki et al. (US 6,603,453, previously cited, hereinafter, Yamazaki.)

The applied reference has a common inventor with the instant application.

Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

In regard to claims 31, 33, 36, 39, 42, 45, 48 in fig. 1, Yamazaki discloses a method comprising:

a process of forming a first wiring line 103 and 104 on a substrate 101,
a process of forming a first insulating layer 105 on the first wiring line,

a process of forming an active layer 107 of the n-channel TFT and an active layer 106 of the p-channel layer, wherein the active layer of the n-channel TFT is located over the first wiring line with the first insulating film 105 interposed therebetween and the active layer of the p-channel TFT does not overlap any portion of the first wiring line.

See also, fig. 18b,

forming a second wiring line 113 on the second insulating layer,

forming an LDD region on the active layer of the n-channel TFT,

wherein the LDD region is provided overlap the first wiring line and not overlap the second wiring line; see above-mentioned figure for clarity.

In regard to claims 32, 34, 35, 37-38, 40-41, 43-44, 46-47, 49-50 Yamazaki further discloses that the first wiring line is formed by a conductive film mainly containing Ta; see col. 30, lines 35-40.

Response to Arguments

3. Applicant's arguments filed 11/17/03 have been fully considered but they are not persuasive. For instance, Fig. 18B as mentioned above discloses active regions do not overlap the first metal layer. See the above discussions.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
